
QUALITY AND ENVIRONMENTAL POLICY

Our company has been providing freight forwarding and customs clearance services since 2001. Our goal is to promptly and effectively meet our customers' needs by continuously improving the quality of our services. To achieve this goal, we implement a Quality and Environmental Management System in accordance with the International Standards ISO 9001:2015 and ISO 14001:2015.

We also recognize our company's responsibility towards the environment and commit to reducing the impact of our activities on it as much as possible, preventing pollution in every potential way.

We monitor and implement the applicable legislative and regulatory requirements related to our business activity, from whichever source they arise, both environmental and non-environmental.

Top Management sets quality and environmental objectives, which it reviews systematically, while concurrently committing to monitoring and upgrading the Management System for its continuous improvement. It further commits to providing the necessary resources and training to the company's personnel.

The Quality and Environmental Policy is communicated to all members of the company and is available to interested parties.

Toptsian Victoria
Chairman of the Board & CEO
